

# Safe travel storytelling dice

To make your own *Kids and Traffic* road safety storytelling dice, stick these pictures to the sides of a large dice. Use your own pictures to spark road safety conversations and promote oral storytelling e.g.

- children and families from your service travelling safely
- pedestrian safety signs and crossings in your local area
- places families visit in the community e.g. park, library, shops or beach.

## LIBRARY

### Activity: Safe storytelling dice and felt board

What are some ways you could involve families at you to help create and share stories through a road safety storytelling dice, felt board or bag?
